THE 24TH SUNDAY IN ORDINARY TIME 12 SEPTEMBER 2021

The Capricorn Coast Parish Liturgy Team

The Liturgy Team is made up of our parish priest, members of our faith and school communities and meets on a regular basis. The Liturgy Team aims to enable the 'People of God' in the 'Work of God' with meaningful worship and remembering that the whole assembly, priest and people, share in the priestly ministry of Christ. We are called and privileged to be a part of the joyful and sad times in people's lives, to join them in their experience of God at a particular time and place, not knowing how best to serve them but being present to them in whatever way we can.

The Liturgy Team acknowledges with gratitude the graciousness of God and endeavours to support the diversity of ministries that serve our communities and in doing so, reflect the hospitality of God.

The ministers of hospitality are firstly the whole assembly; those who prepare a welcoming environment, both inside and outside the church; and those who offer hospitality within and after the celebration. The whole assembly serve each other with loving hospitality as both host and guest.

Jesus offers Hospitality - 'Do you understand,' Jesus said. 'If I, then the Lord and Master, have washed your feet, you must wash each other's feet. I have given you an example so that you may copy what I have done.'
John 13:1-15

The Liturgy Team is mindful that the theme of every liturgical celebration is the Paschal Mystery – the life, death and resurrection of Jesus Christ and each celebration is located within the context of the feast or season of the liturgical year. 'Where two or three are gathered in my name, there am I in their midst'. Matthew 18:20

The Liturgy Team is thankful of the many volunteers who have come forward to serve their communities in many different ways. We have witnessed this recently in the memorable celebrations when many of our young people celebrated the sacraments with their families. May the Lord bless you all as you serve Him with gladness.

SAFEGUARDING SUNDAY PRAYER

Gracious God, you love and care for all of your children, especially the smallest and most vulnerable. We entrust to you the lives of children and adults at risk who have been sexually abused, and whose trust and innocence have been destroyed.

Help us to hear their cries of pain and to take responsibility for those whose lives have been broken. Help us to recognise the hurt felt by those wounded by abuse, and the failure to be heard.

We pray that with the help of your grace communities and families will find understanding and support, so that now and in the future their wounds may be healed and they may find lasting peace.

Let your grace and love fall gently now upon our children and adults at risk, giving them the inner strength, peace and resilience to seek out assistance when required.

We ask this prayer through our Lord Jesus Christ, your Son, who lives and reigns with you in the unity of the Holy Spirit, God forever and ever.

Amen

Listening to Our Neighbours

Rising sea levels, bigger king tides, more frequent and severe storms, coastal erosion, coral bleaching, and decreasing fish stocks are already a daily reality for Pacific Island nations.¹⁹ Some islands are in imminent danger of disappearing beneath the waves and their communities are facing the painful task of relocating. Merineta from Tuvalu explains: *“As a mother of a seven-month-old baby I am worried about his future and his life - all the children of Tuvalu have a right to life - a right to an environment with good quality. I love my country, I love my people and traditions, I love my culture and I don’t want to lose them because of climate change. We all want to stay in our own lands because it defines who we are. We don’t want to migrate or relocate.”*²⁰

Recognising this tragedy, the Migrant and Refugee Section of the Vatican’s Dicastery for Promoting Integral Human Development has released a detailed document on the pastoral care of people displaced by the climate emergency.²¹

Archbishop Peter Loy Chong of Fiji notes that extractive activities like gravel and stone quarrying, black sand mining, the dredging of coral reefs, deep sea mining, and felling forests for palm plantations are harming both the natural and social environments of many Pacific nations. “By displacing or sowing discord among local communities” they damage “the connectivity of family, tribe, clan that has been formed over many years,” he explains.²²

As President of the Federation of Catholic Bishops Conferences of Oceania, Archbishop Loy Chong is currently proposing an Assembly on the Oceans. As Marlene Moses, former Nauruan Ambassador to the United Nations, points out: *“For the people of small islands, understanding the importance of the ocean to human survival is as natural as breathing. If the ocean is healthy, we are healthy; if the future of the ocean is uncertain, so is ours.”*²³

This is not a matter for the peoples of the Pacific alone. Pedro Walpole SJ explains that the rain that feeds the rivers and sustains the tropical forests of Australia and Asia depends on weather patterns determined by moisture-bearing winds that are like a river above Asia and the Pacific: *“All of it is kept alive by this river above. It’s beautiful. It’s so integral. If you want a picture of how to live, it’s all there in this river above. That’s what gives life to the whole of Asia.”*²⁴
